

I screwed up, i've got a MIP meeting all day tomorrow. Do u have a few min. on thurs?

I need signatures on a Job Order, a TCRC proposal, and i want to give u a copy of the full report of the security incident and to discuss the best way to communicate.

Thankx,

Ray

 Subject: RE: Activity & Timeline for Study
 To: Nelson, Jack

Jack:

The current info from our friends across the water is that if they received 300 heaters and 5000 cigarettes by May 1, they could start a 21 day study by July 17 (another delivery of cigarettes is required after May 1). I'm not sure from your message, when the heaters and cigarettes would be available or how many. This information would be helpful in planning. Another major question for me is - What is the purpose of this experiment? Would we get chemistry and in vitro data first to make a determination as to the value of this particular model?

Regards,
 Betaziod C

 File(s): activity/timeline for study

Dear Betazoids (and Fellow Travellers):

Ken and I agreed upon the following activity timeline leading to the planned study. We have scheduled a meeting at 9am May 3 in R&D to review the results and make final determinations. Please let me know if you have any questions. Thank you.

Jack
